Guiteau Failing Fast Physically and Mentally.

Reed's Motion for Rehearing Denied by the Courts.

Mysterious Doings and Rumors at the Treasury.

GUITEAU'S CONDITION.

WASHINGTON, June 5.—Jail officials say the fact becomes more apparent every day that Guiteau is failing mentally and physically. His condition yesterday was startling in the extreme and forebodes a total smash-up before the 30th of June. A certain sign of physical and mental disintegration is failure of a person's appetite in a case like this. Guiteau's appetite is failing. He has become taciturn and uncommunicative since Lawyer Reed's visit yesterday and spends the entire time between rising and retiring laying stretched on his cot, pondering, perhaps, in the few intervening days between life and death. That he will fail before hanging-day is the opinion of those who see and know him, and jail officials will have to carry him to the scaffold and prop him up until the fatal drop falls. Abject fear is taking possession of him, and the assassin will present a pitiable appearance when the penalty is reached. Some are inclined to think he will go stark mad, and present indications surely point in that direction. One thing is certain, and that is Guiteau will surely sink into abject fear and become seriously sick or become wholly crazy before many days elapse.

THE TREASURY IN TROUBLE.

CHICAGO, June 5.—Regarding the Doyle case a Washington special says mysterious things are constantly happening. Only little over a week ago Custodian of Bureau Bell was dismissed for carelessness in leaving two important dies outside the safe when closing up time came. Now, since Bell is out, he refuses to talk about his case and adds to the mystery of his dismissal, apparently being very well satisfied with his disgrace. On the heels of this comes the mysterious poisoning of Brooks, of the secret service. One day during last week he was taken violently sick with the members of his family. Examination shows arsenic in a beef tongue eaten by his family. Why should Brooks be poisoned at a time when rumor is plenty at the treasury that counterfeiters hold enough stock in reserve to dictate their own terms, while rumors of other counterfeits issued from government plates are heard constantly in official circles. In all this medley of mystery and intrigue the case of Doyle at Chicago is made to look very small. Whether he gets out or not is not now of much consequence if the government can really get at the bottom facts. One thing is certain, the treasury people will not be able to get on farther without attracting the attention of congress. If it were not close to the end of a session in which so many interests are pressing to the front a resolution of inquiry would have been introduced and pushed for consideration. It is believed that this week the treasury department will order Brockway and Smyth released. If this is done the interest will be concentrated on the treasury investigation of alleged facts submitted in the interest of Doyle. Stories are afloat of two or three millions of government bonds having been issued by means of stolen dies.

IMPORTANT IF TRUE.

NEW YORK, June 5.—The World's Washington news says: There is a rumor out, indifferently sustained, that the plate on which the extended six per cent. bonds were printed has been stolen from the bureau of engraving, and that $2,000,000 of spurious bonds have been issued therefrom.

THAT CORRUPTION FUND.

WASHINGTON, June 5.—Shufeldt, of Chicago, president of the National Distillers association, testifies that he raised $4,000 from Kentucky distillers to get the bill passed reducing tax to fifty cents per gallon. They intended to hire a lawyer. This was amended by striking out reduction of tax and the fund is now intact. The money was collected from Kentucky because the bonded section of the bill is more in their interest than in the interests of the northwest. He had besides this raised $1,500 in Cincinnati, $1,000 in Lexington, $1,000 in Pennsylvania. Fifteen hundred dollars had been used defending prohibition suits in Kansas and Ohio, and about $1,500 in defraying personal expenses of the executive committee. Not a dollar was spent otherwise. Nobody ever approached witness offering assistance or wanting employment. The northwest was chiefly interested in securing a reduction of tax because it was largely interested in the export trade, and reduction to fifty cents per gallon, which would leave the tax ninety-four cents per gallon on proof spirits, would enable them to export and also sell their alcohol spirits for use at home in the arts and manufactures, which they cannot do now and compete with foreign spirits. Varnishes can now be imported cheaper than they can be made, owing to high tax on spirits. If the bonded period were not extended, about thirty-four million gallons would be unloaded on the market in '84, against the ordinary amount of six or eight millions. Reduction of tax so that they could export their product would save them. Distillers had always co-operated with the government in discovering leaks and evasions and securing faithful collection of taxes. Colonel Wharton, counsel for the distillers, wanted Bell, of the Washington Critic, who brought the charges, summoned while they were here.

REED'S MOTION DENIED.

WASHINGTON, June 5.—Chief Justice Carter and Judges James and Hagner, constituting the court in banc, to-day rendered a decision on the last motion filed by Reed in Guiteau's behalf. The chief justice delivered the decision as follows: "In the case of Guiteau, the judges who listened to the argument in the case have come to the conclusion that they have exhausted their powers on it; that they have heard it patiently, fully and fairly; that argument would bring no other conclusion than that already arrived at, and they decline to reopen the case for argument.

COMMISSIONER OF INDIAN AFFAIRS.

WASHINGTON, June 5.—Ex-Senator Paddock, of Nebraska, has arrived. It is reported that he is to be made commissioner of Indian affairs. Price, the present commissioner, is said to be wearied of office. Paddock is known to be very strong with the administration, and was favorably mentioned by the cabinet. He was very popular in the senate, and if appointed commissioner of Indian affairs, would undoubtedly administer the office to the satisfaction at least of those who are most affected by Indians. He has had a good deal of acquaintance with Indian tribes and with their relations to the government, and would come to office well prepared to perform its important duties.

A LEGEND OF THE SENATE.

WASHINGTON, June 5.—If any human being has any doubt that Conkling resigned with the distinct intention of being re elected, there is circumstantial evidence on the subject, which Conkling might pull out, by addressing another letter to Senator Jones. The senator said to-day it was a legend of the senate, accepted on all sides, that when Cameron, of Wisconsin, took Conkling's seat, which he now occupies, it was after consultation with Senator Jones, and an agreement that in case Conkling did return, he should have the seat again.

HOUSE PROCEEDINGS.

White offered a preamble and resolution, and the speaker directed that the resolution only be read. It releases the committee on ways and means from further consideration of the resolution offered by White relative to the passage of a bill in relation to the extension of bonded period, and referring that resolution to the committee on expenditures in the treasury department with instructions to report in accordance with rule 24.

The speaker ruled the resolution not in order under call of states.

White appealed from the decision of the chair and the appeal was laid on the table, 145 to 72. Call of states was then continued and additional bills introduced.

White offered a resolution directing the secretary of the treasury to inquire into the conduct of Commissioner Raum in connection with the preparation of the bill to extend the bonded period and what improper influences were used, if any, to bias his judgment to make him recommend a loss of $50,000,000 of the public money. Referred to the committee on ways and means.

Kelley, chairman of the committee on ways and means, moved to suspend the rules and pass a bill to correct error in section 2505, revised statutes, on classification of woolen clothes. Lost; not two-thirds voting aye.

SENATE PROCEEDINGS.

Davis referring to his absence Saturday, said his designating Ingalls as president pro tem was according to precedent set by Thurman, and he would like some authoritative expression on the matter from the senate. The committee on rules were instructed to inquire into and report on the question.

Lapham reported favorably a bill giving woman the right of suffrage. George made a minority report.

Pendleton offered a resolution requesting the president to transmit all correspondence not heretofore communicated between the state department and Prescott and Walker Blaine on Chili-Peru matters.

WASHINGTON NOTES.

The president has approved the bill distributing the Geneva award.

Col. Bliss resumed the opening address to the jury in the star route case this morning.

The circulation of standard dollars for the week ending June 3, was 117,000 against 148,890 for the corresponding period of last year.

A journalist just from Mississippi says General Chalmers will be elected to congress against Manning, and if he does come back to congress he will be a most bitter enemy of democrats.

BELFORD INTERVIEWED.

He is Enthusiastic on Secretary Teller and His Policy.

DENVER, June 5.—Representative Belford arrived in Denver on the morning train and was interviewed by a Times reporter. "How are matters in Washington, Judge?" was the first question.

"Everything is now in good shape. Nothing remains to be done except the disposition of the appropriation bills and private and other bills now on the speaker's table."

"How soon do you think congress will adjourn?"

"They will hardly dispose of the business on hand before the 1st of August. It will take fully six weeks to dispose of the appropriation bills. After that will come bills on the speaker's table, which will require one to two weeks."

"How is Chilcott succeeding?"

"Well, he is of course a trifle embarrassed, but is rapidly working into the routine of public business, and what is best of all is disposed to be thoroughly conservative, independent and watchful of the best interest of Colorado. Taking it altogether I do not see how the government could have made an appointment that would in every respect have been more satisfactory. Mr. Chilcott has wisely refused to enter into any combination in politics, and in that respect has, I think, strengthened himself with his constituents."

After some conversations on Speaker Kelfer, the Dorsey trial, etc., Senator Teller's name being mentioned, the judge became enthusiastic. "He is the best secretary of the interior the country ever had," he exclaimed. "He is working night and day and is compelling words of approval from newspapers and men who, when he was first appointed, spoke of him as a nobody. His Indian policy excites some criticism in the east, but eastern newspapers are gradually coming around to the opinion that he knows what he is about and that he understands the necessities of the western people better than eastern philanthropists. He has already commenced the work of disarming Indians and will do so as rapidly as possible. He gives personal supervision to every department and that involves an amount of labor in detail of which even a newspaper man has no idea, and he has already succeeded in getting his department into good working order. He is in a fair way to make his mark in more ways than one, and much as he has changed the working of his department he has done it without a jar and has affected only such interests as are national in character and of great importance. His ruling on the timber question should make him strong among the miners. The people of Colorado may be assured that in Mr. Teller they have a secretary who will never lose sight of what is for the best interests of the country and the west."

Mr. Belford is here as one of the counsel in the case of the Smuggler vs. Iron mine, representing Smuggler parties. The case will not be called for a day or two, but it will take some time, and in all probability Mr. Belford will be in the city three weeks, only returning in time to take part in the closing scenes of the present session.

State News.

DENVER, June 5.—The firemen had a lively time in the 6th ward Sunday evening. Three incendiary fires were started, but only one attempt proved successful, and resulting in a blaze which burned four horses and mules.

Henry Garvin was shot and killed at Lake City yesterday by the accidental discharge of a pistol.

It is rumored General Joseph C. Wilson will be appointed governor of Wyoming in a few days. The general being interviewed, denies the rumor, but acknowledged some of his friends urge him to accept the appointment.

IRON STRIKERS.

Little Change in the Situation.

CHICAGO, June 5.—There is little change to note in the labor situation. Work was resumed at one of the docks of the Joliet iron and steel company to-day, under guard of a detachment of police. A large gang of strikers hovered around all day, but made no violent demonstration. Some fears are expressed that they will attempt to repeat the exploit of attacking the train as the laborers go home if an opportunity is offered. Detectives are still without clue to the perpetrators. A large number of arrests have been made, but all will be able to make alibis. At Irondale employers and strikers alike are waiting for the result at Pittsburg, as furnishing a basis of settlement.

CLEVELAND, June 5. The excitement among iron workers is more intense to-night. The non-union men held a meeting at Newburg this afternoon, and about five hundred were present. Representatives of the Amalgamated association were there in great numbers and took a prominent part in the meeting, making speeches in their interest. It is doubtful if more than a small number resume work in the morning because of intimidation.

CINCINNATI, June 5.—The action of the iron workers at their meeting Saturday, having amounted to a virtual declaration for a general strike, the committee which made arrangements last fall with the mill owners, having exceeded its constitutional power, there is a shutting down of all mills. President Jarrett has been sent for and his presence or message is expected at the meeting held this afternoon. The plasterers' strike has been successful in obtaining the wages asked for, $3.50 per day.

The iron strikers' meeting at Covington last evening was secret. Rumors disagree as to what the proceedings were. The feeling here is good and rather favorabl to an early adjustment of difficulties.

CLEVELAND, June 5.—The Cleveland rolling mill at Newburg started up this morning. About five hundred are at work. There is no violence yet, but trouble is brewing.

NEW YORK, June 5.—Fifteen hundred boiler makers returned to work this morning.

IRISH PASSIONS.

Davitt's Defense of the Purposes of the Land League.

NEW YORK, June 5.—The Telegram has the following special from London: Davitt has written a long reply which appears to-day to a pamphlet entitled "The truth about the Land League," published anonymously some weeks ago and extensively circulated through the united kingdom, and now re-issued under his own name by the author, Arnold Forster, son of the ex-chief secretary for Ireland. The purpose of the pamphlet is to show that the land league and those connected therewith had in view the commission of outrages, mutilation, plunder and murder. Evidence is supplied by extracts from speeches and newspaper articles. Davitt's reply is that the evidence has been garbled, passages have been persistently removed from the context and parts have been suppressed. The object of the pamphlet, he says, is to arouse prejudice and kindle hate, for which an opportunity had been afforded by the Dublin assassinations, a purpose which he designates as wicked and hateful at a time when the efforts of good men on both sides are being directed to allay passions. Davitt smilingly remarks that he regrets the author has not been brought up under better influence than that of presenting a lie which is half truth. He maintains that anything may be proved in the same fashion against reformers who have given England untaxed bread and extension of the franchise. Has not Forster, Sr., he asks, done mischief enough without Forster, jr., coming forward now. It was Forster, who stirred Irishmen to madness, and helped make the people of the two countries hate each other that an accursed system might be easier to rule and ruin. To the charge made in the pamphlet that in 1870 Davitt was committed as a felon, having been engaged in a plot to murder, Davitt replied that what he did in 1870 is no proof of what he did in 1880 and inquires why the pamphlet which pretends to tell the truth about the land league does not tell the whole truth about his share therein. "I drew up the charter of the land league," says Davitt, "and I drew up instructions to organizers from that time till the orders of Forster reconsigned me to a convict prison. I made a hundred speeches. Why does not Forster make quotations from any of them if he would find me guilty of inciting to outrage and murder? The answer is: "He cannot." I defy him to name an instance wherein I did otherwise than decry force and protest against outrage. If he cannot see this he had not the right to go back ten years." Davitt goes fully into evidence against him in 1870 and says it would not have hung a dog at another time, and that Forster's suppression of facts in connection therewith is more cruel and cowardly than the act of any miserable moonlighter in Ireland. Other statements quoted against the land league, he asserts, were made by men who had no more right to represent the league than Forster has to represent the society of Friends. In extracts quoted from the Irish-World, he accuses Forster of bearing false witness for the purpose of making political capital out of national hate. He concludes with a high compliment to Herbert Gladstone, and congratulates the premier on having got rid of Forster.

Honors to Garibaldi.

MADDALENA, June 4.—General Garibaldi's will orders his body cremated and the ashes preserved in a porphyry urn in the tomb of his dead child at Caprera. The will is dated September 17, 1881, and entrusts the execution of his wishes to his wife.

ROME, June 5.—The municipal council has adjourned until the 13th instant, and will send a deputation to Caprera to attend Garibaldi's funeral. The bourses of Rome, Genoa and Naples have closed. A subscription has been opened by political and workingmen's societies to raise funds for the erection of a monument to Garibaldi. The chamber of deputies was crowded to excess yesterday. President Farini delivered a panegyric on the deceased general, during which the whole house remained standing. Signor Depretis, president of the council, presented two bills, one postponing the national fete till the 18 instant and decreeing funeral honors, and the other providing for the erection of monument to Garibaldi at the cost of the state, and the payment of pensions of 10,000 lire to his widow and each of his five children. President Farini moved a resolution that the Chamber adjourn until the 13th instant, that members may attend in a body a popular demonstration in honor of Garibaldi, and that a deputation go to Caprera to attend the funeral. Both the bills and resolution were adopted. The senate commemorate the death of Garibaldi in a similar manner.

ROME, June 4.—All liberal journals are in mourning, and publish eulogies of Garibaldi. The French Chamber of Deputies adjourning as a mark of mourning produced an excellent impression. Ricciotte Garibaldi and Major Canso have arrived at Caprera. Preparations for the cremation of the remains have been suspended. Doctors are expected to arrive this evening.

LONDON, June 5. The Cobden club passed resolutions of regret at the death of Garibaldi.

PESTH, June 5.—The lower house of the diet adopted resolutions expressing sympathy with the loss of Italy and mankind by the death of Garibaldi.

Among the Old Folks.

LONDON, Ont., June 5.—A mile of Avon, resides a venerable citizen named George Norris, the oldest man in the district, having passed and celebrated his 103d birthday, he is still hale and hearty, and thinks seriously of emigrating to the northwest this summer to take up land. At 75 years of age, Mr. Norris was in his prime, and celebrated his one-hundredth birthday by cutting half a cord of wood and husking corn the balance of the day. His age can be verified by old settlers. Norris comes of a long-lived family. His grandfather lived to be 106, and dropped dead while plowing a field on his farm. His grandmother was 107 at the time of her death and walked four miles to make a visit two weeks before her death. His own father lived to be 103 and his mother 100.

Culpable Carelessness.

CHICAGO, June 5. The Inter-Ocean's Muscodo, Wisconsin, special says: A construction train of sixteen flats with workmen came from Prairie Du Chien to a gravel pit west of this place on the C., M. & St. P. road this morning. Fearing a washout of the temporary side track the engine and caboose detached and ran up to the pit and finding all right backed down at full speed and crashed into the flat cars, telescoping the caboose. Five men were badly hurt. Engineer Whitney testified at the coroner's inquest that he did not know the flats were detached.

Princess Louise's Arrival.

QUEBEC, June 5. The mayor read a congratulatory address to Princess Louise on her arrival, in French, and in the same language her royal highness responded, expressing the pleasure she had in returning to Canada. Louise was plainly attired in a very narrow-striped, gray water-proof ulster, and a hat trimmed with black satin and plush.

CITY COUNCIL.

Regular Monthly Meeting Last Night.

Large Amount of Miscellaneous Business Disposed of.

The regular monthly meeting of the city council was held in the council chamber last night, with Mayor Robbins in the chair and all the aldermen present except Mr. Wheeler. The minutes of the last regular meeting were read, but those of the last two special meetings were suspended on motion of Alderman Coombs, in order to give the council more time to attend to business.

Police Magistrate Pixley presented his report for the months of April and May, showing that he had collected fines to the amount of $127.20.

It was received and ordered placed on file, although Alderman Coombs thought that such reports ought to be examined into more thoroughly by the council.

City Treasurer Hooker made his report on the condition of the city finances on May 31st, 1882, showing that moneys to the amount of $534.15 had been paid out during the month, leaving in his possession on the date above mentioned $6,064.24.

A communication from H. P. Snyder, asking that the council take some measures towards stopping the running at large within the city limits of cattle and horses, and offering the city the use of a pound. It was referred to the city marshal.

A communication from the same gentleman, asking that the grade of East Willamette street be established was referred to the committee on streets and ditches.

A petition from Banistead & Gibbs, asking that they be granted a plumber's license, was, on the motion of Alderman Crowell, allowed.

The local board of underwriters, consisting of the various insurance agents in the city, presented a petition requesting that the city council prohibit the erection of any more veneered buildings within the fire limits of Colorado Springs. A motion was made that it be received and placed on file, but Alderman Crowell asked that immediate action be taken on the petition. He said it was not only the desire of the insurance men but also of the fire department that it should be attended to at once. Alderman Wilson endorsed the sentiments of Mr. Crowell and made a motion to the effect that the committee on fire department consult with the chief of the fire department on the matter and have a proper ordinance drafted.

A petition from Wm. Scott for plumber's license was ordered granted at the same price as to all other plumbers upon the filing of the customary bond.

The petition of R. W. Wright and others, requesting the extension of the water main on Wahsatch street, was referred to the committee on water works.

A similar petition for an extension on San Rafael street from L. K. Bass and others was also referred to the committee on water works.

E. N. Bartlett and others urged the necessity of grading and graveling El Paso street in front of block 220. The matter was referred to Alderman Coombs, chairman of the committee on streets and ditches, with power to act.

The petition of G. N. Marden, J. H. Kerr, and others, asking for the extension of a water main from Nevada avenue through San Miguel street, was read. In connection with petition, President Tenney explained the object in asking for the extension, and stated that it was of interest to the entire neighborhood. Alderman Wilson favored the council taking immediate action as the same application had been before the council before. It was referred to committee on water works.

W. H. Wheeler presented a plat of his subdivision to Colorado Springs. This same plat was before the council at its last meeting and referred to the committee on streets, roads and ditches. It was concluded to accept the plat providing certain changes, asked for by the council, were complied with. It was referred back to the same committee.

Alderman Coombs laid before the council a dedication plat of addition No. 4, made by the Colorado Springs company, whereby the said company gave to the city the Experimental Garden for a public park. The land included in the plat is that laying between the hotel grounds and the depot.

Both Aldermen Crowell and Wilson thought that the Colorado Springs company had not exactly fulfilled its promise, for as they considered it the city was to have all the land laying between the hotel grounds and the depot, bounded on the south by Huerfano street, and on the north by the present fence of the Experimental Garden. Alderman Coombs said that there was no need of a misunderstanding in this respect as a plat of what the Colorado Springs company proposed giving the city was laid before the council at its last meeting.

A dedicatory deed from the Colorado Springs company giving to the city Acacia and Alamo parks was also read. On motion of Alderman Crowell both the deed and plat were referred to the committee on public grounds and the city attorney was instructed to examine the documents.

Alderman Brown as chairman of the printing committee stated that the bids of the GAZETTE Publishing Co. and Republic Printing Co. for city printing for the ensuing year had been handed in and requested that the city clerk read them. A motion was adopted referring the bids to the printing committee together with the city clerk extending full power to act.

Alderman Brown, as chairman of the committee on fire department, revived the question of adopting the telephone fire alarm system, and requested that the proposition presented at the last meeting of the old council from the telephone company be read. This proposition was printed in the GAZETTE at the time.

A letter from T. C. Clayton, chief engineer of the Denver fire department, was read. Mr. Clayton thought that the telephone system had many advantages over the electric system and recommended it as the most practical one.

Alderman Hinebaugh moved the acceptance of the proposition, which motion was seconded.

Alderman Wilson opposed the adoption of the proposition more on the grounds of economy than anything else. Said it would involve an expenditure of $600, for which the appropriation bill did not provide. He called on Chief Engineer Pixley to give his opinion. In reply Mr. Pixley said he thought there were other things needed worse by the department. There was a scarcity of hose and more hydrants were needed. A motion to lay the question on the table until the next meeting was carried by a vote of 4 to 3.

It was concluded by a unanimous vote of the council to purchase 1,000 feet more of three ply cotton hose for the use of the fire department.

Next in order came the allowance of bills. Alderman Coombs thought that the council ought not to pass bills so hastily. Said that some alderman ought to certify to every bill presented. The first bill read was that of the Republic Printing company, and the question arose as to whether it was correct or not and it was referred to the committee on printing. The bill of the Gazette Publishing company was treated in a like manner, but both were after recommended to be paid by the committee.

The following bills were allowed:

D T Douglas	$ 1 50
Gas and Coke company	106 40
A J Downing	21 35
Hammond & Irving	271 95
W F Ellis	9 00
Bacon & Carr	5 00
M A Dickinson	5 00
Daniel Quinn	14 40
Van B Rouse	9 00
Salary roll	640 00
Opera house company	35 00
J L Marston	4 80
G F Ilsley	20 00
Gazette Publishing company	80 88
Republic Printing company	34 01
A H Corman	10 00
Labor on streets and ditches	291 00
G S Barnes	12 00
Dr Marlow	75 00
John Pixley	47 80
Giles Grissey	336 72
T F Clifford	8 00
Mary Walch	75 25
Frank Rawson	20 00
John Townsend	58 00

Before the bills were all passed Aldermen Wilson and Crowell asked to be excused on account of the lateness of the hour, which request was granted by the mayor. Shortly afterward the council adjourned to meet again on next Monday evening to settle up such business as had not been disposed of.

A Terrible Fall.

Mr. Fred Conant, who is well known by many in Colorado Springs, met with quite a severe accident at Denver on Sunday. Speaking of it the Denver Tribune says:

Mr. Fred Conant, of the Louisville Herald, met with a serious accident yesterday at the Windsor hotel. While transacting some business in N. W. Babcock's ticket office, Mr. Conant unguardedly stepped aside into an open hatchway, falling about fourteen feet, and receiving severe injuries about the head and face, from which he is likely to suffer for some time. Drs. Hart and Smythe were called upon to dress the wounds, and last night at 9 o'clock Mr. C. was resting as quietly as possible under the circumstances. Mrs. Conant was telegraphed for, and is expected to arrive on the morning train.

It seems that about 3 o'clock in the afternoon Mr. Conant who has been stopping for several days at the Windsor hotel, met Lieutenant Governor Tabor in the rotunda and stepped into Mr. Babcock's office to get a copy of the Herald which contained an article which he wanted to show to the governor. Just under the boxes where the papers are kept, there is a trap door leading into the basement below. The door was raised at the time. Mr. Conant had taken the paper, and was about to return it to its place, when he stepped by accident into the open hatchway and fell to the bottom of the basement. He was picked up and carried to his room in the hotel. A long cut on his scalp extending down upon his forehead, a deep gash in the nose and several cuts on his lip and face attested the severity of his injuries.

A Bishop's Threat.

CLEVELAND, O., June 5. The breach between Bishop Gilmour and is flock is wider to-night than ever; his letter threatening to excommunicate the lady members of the league was read in the churches to-day, and commented on by the priests, who favored the bishop's position. A large meeting of the land league was held last night, and general sentiment favored the ladies, who have the support of all land leaguers in the city. The ladies are determined not to disband. Miss Mary Rowland, the president of the ladies' branch of the land league, has written a bitter, open letter to the bishop, in which she says the women of the Parnell branch of the league will continue in the work they have undertaken. She sets the bishop's threat of excommunication at defiance.

In Orange county, Florida, yesterday, Mr. Warburton started, in a carriage, with his wife and twin children, the entire family, for Lake Eustis. On the way he drove into the lake to water the horse. The latter drew the carriage after him in deep water and the whole family were drowned. The four bodies were recovered.

It is a curious fact that all contested election cases are decided in favor of the contestant who is on the side of the minority. It was so in the democratic house and is so with the republicans. It does not give one confidence in the fairness of political warfare. The minority ought occasionally to get a man in.

The Colorado Springs Gazette insists that the Pennsylvania independents don't want offices and wouldn't have them. Yet it cannot disguise the fact that all their howl is about the distribution of the patronage.—[Leadville Chronicle.

The Chronicle should read up on Pennsylvania politics. The difficulty was that good officers were removed without cause and replaced by poorer men.

Were all Irish landlords as liberal as the Earl of Dunraven, there would be little need of extreme legislation. He has gone to his estate to revise his rent roll and adjust any real grievances. The great trouble has been through absenteeism. The owners of a half of the land in Ireland do not live upon it and hence are unaware of the cruelty and oppression that their agents may be using in collecting the rent. The Earl of Dunraven chooses to disclaim his responsibility to his tenants personally and not through agents.

Senator Mitchell has had a good omen. A Washington dispatch says that a fire started in one of the rooms of the house in Washington he is occupying. It says, "The senator worked gallantly, pulling down curtains, trampling out sparks in the carpets and pouring water on the flames. He worked so successfully that he had extinguished the fire before the engines arrived. Looking out of a window for air, he saw four drawn up by the curb. He smiled triumphantly upon them, 'Well,' said a saturnine Pennsylvania stalwart on the opposite curb, 'he beat the machine once, but he'll never do it again.'"

The Denver Republican's Washington special says that the attorney general has rendered a second opinion that further legislation is necessary to open the Ute reservation. The delays caused by getting these two opinions are likely to prove fatal to the bill. The bill was delayed for a month for the first time to get an answer to a resolution introduced by Senator Teller inquiring if such legislation was necessary. Attorney General Brewster gave an opinion that it was. The bill then passed the senate and went to the house. Here another delay was caused by Secretary Teller asking for another opinion. This has been finally given as before and the bill can again be considered. The meaning of the efforts to block this bill are not understood.

Our dispatches speak of the Papago reservation in Arizona. The name means hair cut. Its origin is this. When these Indians were converted by the Franciscan friars, their hair was cut as a badge of their faith. They have held to this custom ever since, and are thus known as the hair cut Indians. These Indians are of the Apache family, which always wears the hair hanging loosely on the back. This tribe does not receive any government aid whatever. They support themselves simply by agriculture and basket manufacturing. Their reservation is just south of Tucson, but there is never any trouble between these Indians and the whites. They are one of the best illustrations of what the early Catholic missionaries accomplished. They worship in the most famous church in the entire district covered by these early Franciscan friars. It is called San Xavier Mission. It was built by the Indians out of burnt bricks and not out of adobe, and preserves its beautiful form in unbroken outline. It is a marvel to all who behold it, how a few friars and a tribe of poor, unskilled Indians could have erected so magnificent a structure. It is far superior to any of the Mexican churches in New Mexico, and is a memorial of the devotion of the Indians and their teachers.

Cameron, of Wisconsin, introduced a bill in the senate to-day granting right of way to the Arizona Southern railroad on a strip of land 200 feet wide through the Papago Indian reservation in Arizona. Delegate Oury introduced a similar bill in the house.

Senator Conkling usually does not condescend to be interviewed. But he has recently been interviewed with a view to secure the publication of certain letters bearing on the Conkling-Sharpe affair. The tone of the letters indicates that after the Sharpe interview he wrote letters to his friends who were present at the famous interview at Arthur's house and asking them to state the part General Sharpe took in asking him to run. All letters agree that he was one of the most earnest advocates of Senator Conkling running for re-election. But after all they have nothing to do with the real question at issue. General Sharpe never denied that he was not an earnest partisan of Conkling in the earlier part of the fight. The real charge that Sharpe made was that Conkling had in de a league with railroad corporations for his re-election, and for this reason he deserted him. Conkling says nothing on this point. The letters prove nothing that Sharpe does not admit. Mr. Conkling shows a great change of heart in seeking newspaper vindication.

I predict your book will be a pronounced success."—[New Haven Register.

The Hygienic Exhibition at Berlin, which was completely destroyed by fire just as it was ready to be opened to the public, is to be replaced by another which will be completed by next spring, and which will be housed in a fire-proof structure. The committee have been encouraged to renew the enterprise by the emperor and empress, the crown prince and princess, and Prince Bismarck, and about $30,000 was promptly contributed to the guarantee fund.

Leprous Laborers.

TORONTO, June 5.—A special to the Globe from British Columbia says the Fraser river steamers are running to and fro with loads of Chinese coolies for work on the Canada Pacific railroad. Something like 8,000 will be employed on the work before the close of the season. Those newly arrived are reported not free from leprosy. At a meeting at the amphitheater here Sir Jno. MacDonald said: "I am opposed to Chinese labor in America, for I do not think it is for the permanent interests of Canada to bring in semi-barbarians to work out and supersede white labor."

A voice: "How is it they do come?"

"Well, they do come, and so do rails. I am pledged to build the Pacific railroad in five years, and if I cannot obtain white labor I must employ the other."

Negro Incendiaries.

TUSCALOOSA, Ala., June 5.—The town of Eps, in Sumpter county, Alabama, was almost totally destroyed by fire last night. A crowd of drunken negroes became very boisterous, insulting citizens, and threatening the police. The white men banded together and drove them out of town. After night-fall they returned and set fire to the place. Seven stores were burned. Four negroes boarded a train on the Alabama and Great Southern railway and were arrested when the train arrived here this afternoon. They are now in jail and will be taken to Eps to-morrow.

The New Penal Code.

NEW YORK, June 5.—The new penal code does not take effect till December next. It provides for the punishment of persons who break the contracts of service or hiring, knowing that the probable consequences will be to endanger persons or valuable property, thus taking cognizance apparently of strikes; as, for example, when workmen in an iron furnace quit work just as molten metal is ready for casting, when compositors on a paper withdraw at an hour, purposely so late as to prevent preparing the next day's papers, when railroad hands stop their trains at a fixed time along the line of the road, leaving cars, passengers, and freight, wherever they may happen to be at the moment.

Outbreak in India.

CALCUTTA, June 6. It is stated the Khonds, an aboriginal tribe in the central provinces, have taken Bhowanpatern, a chief town of a tribe called the Kaltas, whom the Khonds accuse of encroachments. They entered the city, and murdered over four hundred people. Portions of hair and flesh of the victims are distributed among the hill Khonds to induce them to join in the revolt.

Garibaldi and the Church.

ROME, June 6.—On hearing of the death of Garibaldi, the pope reained silent a while, then raising his eyes to heaven, said: "There has gone another figure of the revolution. Oh God, be merciful to him." The Vatican organ, Voce Della Verita says: "Garibaldi was one of the most determined and frankest of adversaries. Not from such come the heaviest blows, and the bitterest troubles. He was no hypocrite. May the prayers of his pious mother have smoothed the last moments of her son's agitated life."

Washington was killed with buckshot, and Fehrerbach had his throat cut, a bullet wound in the left cheek, and a wound from a club. Washington was a surveyor and lived in Bois City, Mich. Fehrerbach lived near there. John Tibet, aged fifteen, is suspected of the murder.

Brave Act of a New York Fireman.

New York World, May 30th.

A few minutes before 11 o'clock yesterday morning a fire broke out in the mattress factory of R. Samuels, at 43 Suffolk street. Almost as soon as the fire was discovered smoke filled the building from basement to roof. The three upper floors were occupied by tenants, and among them there was great consternation. A general rush was made for the street, and it was supposed that all had got out of the building, when Samuel Fransel, his wife and a young woman named Rose, made their appearance in one of the windows of a third story front room and began to shout frantically for assistance. No hook and ladder truck had arrived, and it seemed as if the people must either jump or be suffocated. Search was made for ladders and one about fifteen feet in length was found. Fireman Gillespie, of Hook and Ladder No. 6, who happened to be in the neighborhood, had raised the ladder to his shoulders, as the leader of engine company No. 15 tore down the street with its horse at full gallop. Fireman Frank Leonard, hatless and coatless, was driving. Leonard took in the situation in an instant. Before his horses had hardly stopped he jumped from his seat, climbed upon Gillespie's shoulders, and had begun to ascend the ladder to the rescue. The ladder was very rotten, and the first three rungs gave way in succession under his weight. Several more gave way before he reached the top. By this time a longer ladder had been raised and on it Leonard mounted to within six feet of the window in which the people were. The man sat upon the sill of the window as it about to throw himself out and the women clung to him from behind. Leonard called out continually to the three, entreating them to wait until he could reach them. When he got to the top of the ladder there was still six feet between it and the window. He saw that he must act quickly, so bracing his feet on the side of the ladder, he called out to the younger woman to jump. With some hesitation she stepped upon the window-sill and dropped. The ladder trembled and creaked as Leonard caught her on his left arm and strained its muscles, but his equilibrium was retained. Without losing his hold on the ladder with his feet he passed the woman by his body. As he looked up again he saw Mrs. Fransel just about to drop from the window sill. The ladder swayed even worse than before as he caught her around the waist and lowered her in the same way as the other woman. Had he not caught her, all three must have been dashed to the ground. Cheer after cheer went up from the crowd as Leonard caught each of the women and guided them down the ladder, and the applause was deafening when the man was helped out and all three had gained the street. Both women were bewildered when they had passed from the danger and their friends hurried them away. When the fire department laddies arrived the danger was over, and in twenty minutes the flames in the building were extinguished. The fire had been caused by a defective gas-pipe, and the thick smoke by the burning mattresses. The loss is trifling. Everybody who witnessed the fire thought that the whole building was ablaze within.

THE DUTY OF SERVANTS

Sermon by the Rev James B Gregg at the Congregational Church

The Rev James B Gregg preached at the Congregational church last Sunday from the following text

So likewise ye when ye shall have done all those things which are commanded you say We are unprofitable servants we have done that which was our duty to do — Matt xvii 10 —

The text is taken from Luke and is found in the parable in regard to the duty of a servant. Do you thank your servant for everything he does you? Certainly not. The matter is best brought to our practical sense by an illustration. Suppose the case of two daughters, each of whom waits upon the mother; one does her work cheerfully, not seeming to think that she is doing anything worthy of praise. The other seems to think that she is doing her mother a great service and regards herself as a self denying and unappreciated person. Which of the two do we most respect, the one valuing her own work or the one living in modesty? The popular heart has ever clung to those who have done much and said little. William of Orange, called the Silent, Wellington, and our own Lincoln and Grant. This parable is another illustration that man's pride shall bring him low. When the Bible bids us to be humble it is not meant that we should underrate our own ability. To do this leads men to be untruthful. Modern religionists too often get into this state. I once knew a minister who always put in his long prayer O Lord enable thy unworthy worm of the dust to preach the truth, the whole truth and nothing but the truth. It is unpleasant to hear a congregation sing that hymn in which they speak of themselves as rebellious. But it will be asked does not the Bible speak of men as worms? Yes but rarely. The term occurs only three times in the Bible. The preacher by his constant repetition to the reality cut of it and made it ridiculous. Sometimes a man in a fit of vexation on account of some act of his calls himself a fool but this is no his calm deliberate opinion of himself and in some such way we are to construe the e statements in the Bible.

God's demands imply that man is able to comply. If this were not so God would be unjust. But it humility is a true sentiment that we are to learn our own inability what does it mean? It means to recognize how much we fall short morally and spiritually of what we might be. The sect is most distrustful of their own wisdom. The child thinks the stars but a few miles away. But when he grows older he learns that they are far distant ... The more men know the more they see the ... true in the moral world.

The man who ... distinguished ... that we must dwell on what they have done ... what they have accomplished ... It is but ... how much there is in life to do. But what is more pitiable in this world ...

This parable ... set forth in two ways.

First We should not be indolent. We have various capabilities. One may refrain from work he is not suited to do but when he refuses to do certain work on this account, he should at once offer to do something else. There are diversities of gifts in every church, but there should be the same spirit of helpfulness. He who refuses to work unless prevented by sickness or unusual burdens brings shame on the cause. One of the hardest lessons to learn is to work without recognition or even in the face of opposition.

Second When we do our best we are not to think our indebtedness to God is canceled; but that he deserves our service all through eternity. We can repay God's love by service, not grudgingly but willingly, not as hard duty. This parable is not complete without that other parable "Blessed are those servants whom, when their Lord cometh, he findeth ready." Christ washed his disciples, showing that there is nothing menial in services that love renders. His greatest glory was to minister to men and thus should be ours. The faithful daughter did not herself feel that she had done much, but her mother feels the service with a depth of love of which the child never dreams, and while we should set a light value on our work the Father does not set a light value on it. The hour is coming when we shall cease from labor and our works shall follow us.

There is an old bible story which used to interest us in our childhood. Joseph called his son Manasseh, meaning Forget. Oh, blessed oblivion, not of the heathen Lethe. Our sorrow shall be swallowed up in joy, our shame if there be shame in glory. Truly eye hath not seen and ear hath not heard the things which God hath prepared for his unprofitable servants.

The Monument school board has just obtained plans for a new school building to cost $2,500.

Hon. F. C. Goudy, district attorney of the Sixth Judicial district, spent Sunday in Colorado Springs.

Messrs. Joe Erickson and J. E. Orr, mail route agents on the Salt Lake extension of the Denver & Rio Grande, were in the city yesterday.

Dr. B. F. Anderson is preparing a paper on Colorado fevers which he will read at the annual meeting of the State Medical society next week.

—Several of our real estate men report that real estate is looking up a little and that there has been a marked increase in the transfers during the past week.

Sunday's GAZETTE, containing President Tenney's address, may be bought at the counting room in wrappers ready to send east. It is an admirable address and should be widely circulated.

Mr. Nat. Babcock, editor of the Gunnison News-Democrat, arrived in the city yesterday, accompanied by his wife. They came more especially to spend a day or so with Mrs. Lynn, Mrs. Babcock's sister. They will return to Gunnison City to-night.

Mr. Billy Bryan is preparing for a grand ball to be given at the Saratoga hall, Manitou, in the near future, due announcement of which will be made through the columns of the GAZETTE. He contemplates securing the services of the Colorado Springs band.

The two valuable lots south of, and adjoining the court house, were sold last week by Mr. Rowe to C. M. Fisk for $2,050. Within the last few days Mr. Rowe has also sold eleven lots in the northern portion of the city, some of which will be built on during the present season.

An excursion train of eleven coaches, all crowded to their fullest capacity, passed through the city about half past eleven Sunday morning for Pueblo. Many of the excursionists left the train here and spent some time in the city and at Manitou. The fare for the round trip was $1.00.

It is understood that a mail car will shortly be put on run through Denver & Rio Grande express between Kansas City and Colorado points. It is also rumored that the schedule time will be decreased to compete with any that may be made either via the Union Pacific lines or the Chicago, Burlington & Quincy.

We were shown yesterday the gold medal offered by Mr. Orlando Metcalf as the first prize of the athletic association 100-yard handicap. It has just been completed by Mr. A. Allen and is a handsome piece of workmanship. The metal is made of a $20 gold piece, burnished and engraved with a blank space for the insertion of the winner's name. A silver one of similar design will be offered by the association as second prize. The first contest for these medals will take place on the association grounds next Saturday afternoon at 3 o'clock. All members of the association can compete for it but must make their entries with Mr. W. B. Thornell on or before Thursday June 8th.

The burglars still continue to commit their depredations in Colorado Springs. On Sunday night Mr. A. Anthony's room at the Eureka house on Cascade avenue was entered and a gold watch and seven dollars in money were taken. Both the watch and the money were in his vest pocket, which amount he had taken the precaution to place under his pillow before retiring. Another room in the same house was entered and a small amount of money taken. A guest at the Empire house directly opposite the Eureka house on Cascade avenue, had a gold watch and $35 in money stolen from his room the same night. There seems to be no clue as to who the thieves were.

Coroner Perkins has received a letter from D. W. Crowley of St. Louis who says that there is but little doubt that the body found east of this city on the 22d of May, is that of his brother, J. A. Crowley. He however asks for a full description of his person and clothing, and whether there was any mark of an old wound on his wrist. Mr. Crowley says in his letter that his brother left St. Louis about March 15th, in bad health, went to Denver. He served nearly four years in company G, 58th Pennsylvania volunteer, and came west to locate on some government land, and get a little to it in a few months. Mr. Crowley says that he had considerable money and baggage with him which he must have left at Denver or Pueblo.

The wonderful spiritual mediums, the Miller Brothers, will hold their seance at the opera house, Wednesday evening, June 7th. They are highly recommended by the press throughout the country. The Greenville, S. C., Daily News, of January 26th, says: "Although a soaking rain was falling last night, and the streets were deep in mud, the opera house was well filled with an intelligent audience, who gathered to witness the remarkable spiritual manifestations which were advertised to be given; and no one who was present came away disappointed, for some of the most amazing feats were performed by unseen agencies which have ever surprised the people of Greenville. Names were written on cards by well-known residents of our city, and the cards were retained by the writers, who did not disclose the writing, yet the cognomen suddenly appeared on a slate which was placed by one of the spiritualists on a chair, being suddenly transcribed by an unseen hand. Communication was had with deceased friends of parties in the audience, and messages from the spirit land were plainly transmitted on the slate by unknown means. At one time the house was darkened and blood curdling spectres appeared on the stage. Altogether, it was certainly a most remarkable entertainment, and every one was thoroughly amazed and confused by its extraordinary character."

Always buy your tickets at the depot and you will be sure to get good tickets and no baby. Rates to Chicago and St. Louis and all points east, same as from Denver or Pueblo. Select your own route. All trains make direct connections at Pueblo, and all trains make close connections at Denver. Sleeping car accommodations will be secured by telegraph on application. Three passenger trains daily each way.

CAVE OF THE WINDS!

Now Open for the Season of 1882,

Is located in William's Canon, one mile north from the Mineral Springs in Manitou.

There is no more pleasing or grand sight in Colorado and you miss a wonderful scene if you fail to see it.

There are large stalactites and grand old stalagmites with the most delicate and beautiful flowers. The sight of one room and grotto of the flower of alabaster is worth infinitely more than the expense and trouble of visiting the cave.

There are many rooms for you to visit, among which are Cascade, Canopy, Cathedral and Music Halls, Alabaster Grotto and the famous Bridal Chamber.

The air is pure and there is no water to injure or soil clothing. Wraps and lights furnished and attentive guides. Come and see us.

SPIRITUALISM!

COMMUNICATION
Wednesday Evening, June 7th.
THE
MILLER BROTHERS
Will hold a
Grand Spiritualistic Revival

Assisted by other wonderful and newly developed mediums, who invite the closest investigation, performing all the tests on the lighted stage

Without the aid of any Cabinet. No Ropes tying, no Handcuffing.

The following are some of the marvelous manifestations which usually take place in the presence of these mediums: A LARGE TABLE RISES AND FLOATS IN THE AIR. The test, which is usually attempted by forming a circle of ladies and gentlemen around the table, is accomplished by the medium simply resting the fingers of one hand on the top of a common wooden table, unaided by any other force than the influence of spirit power surrounding him. A most marvelous manifestation, never before accomplished.

MATERIALIZATION.

Forms from the spirit land appear, while the mediums are held hand and foot. A committee is chosen from the audience to secure the medium, and while in this condition spirits will materialize and demonstrate in view of all present, and those who wish can shake hands as they are about the hall. Spirit forms walk out in full view of the audience.

THE WONDERFUL SLATE TEST.

Messages written by an invisible hand before the eyes of the audience.

Clairvoyance or supernatural vision. A book is opened by a person chosen by the audience, at whatever page he may see it, and is read by the medium while on the stage without seeing the book.

Sealed messages read and answered by the medium. Musical instruments will float in a wonderfully strange manner, playing as they go.

Come and see for yourself. Take no one's word. Investigate. Believe your own eyes. Be guided by your own reason.

As there are no reserved seats, it will be well to come early to avoid confusion, annoyance and perhaps disappointment. Doors open at 7 o'clock. Commence at 8 o'clock. All are invited.

A PERFECT CORSET
SECURED AT LAST.

A combination of Coraline Wire Sections, Whalebone and Corset Jean, which is pronounced by our best Physicians less injurious to the wearer than any other Corset made.

Fits perfectly a greater variety of forms than any other.

Yields readily to every respiration and is equally comfortable in any position assumed by the wearer.

Warranted to retain its perfect shape till worn out. By it you secure a more graceful figure than with any other corset. Please give it a single trial and you will wear no other.

What Eminent Chicago Physicians say of it.

CHICAGO, October 23, 1880.

I have examined BALL'S HEALTH PRESERVING CORSET and believe that it is in every respect best calculated to preserve the health of the women who wear it.

It does not seem to be possible for the wearer of such a corset to be injured by tight lacing. It should receive the favorable endorsement of the Physicians who have the opportunity of examining it.

JAMES NEVINS HYDE.

CHICAGO, October 26, 1880.

I fully endorse what Dr. Hyde says in the above note.

W. H. BYFORD.

CHICAGO, October 13, 1880.

I have examined BALL'S HEALTH PRESERVING CORSET, and believe it to be the least injurious to the wearer of any Corset I have seen.

A. J. BAXTER, M. D.

CHICAGO, October 27, 1880.

I do not advise any women to wear a Corset, but if she will do so, and she generally will—I advise her to use one of BALL'S HEALTH PRESERVING CORSETS, as it is less likely to do her injury than any with which I am acquainted.
